

Heated ski socks with remote GQ2

Specifications:

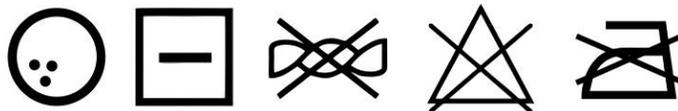

- battery: 2x 2400 mAh (17,76 Wh); Li-Poly (included in the set)
- built-in energy gauge
- heating element: 8 W - carbon fiber
- the heating element is located on top part of the feet
- modes: 33% (LO), 66% (MED), 100% (HI)
- working time: 6 h (LO), 3 h (MED), 2 h (HI)
- fabric: 100% cotton
- sizes: M (35-40), L (41-46)
- weight without power banks: 150 g
- weight with power banks: 270 g
- package dimensions: 329x120x50 mm
- package weight: 500 g

Features:

- The heating element is constructed from carbon fibres offering extraordinary reliability and durability as well as medical properties, thanks to infrared waves
- A safe and economic Li-Poly battery provides a long time of operation of the heating system
- The set contains a remote control, thanks to which the comfort of using the insoles is extraordinary and 2 power banks
- All electronic elements may be easily removed, which allows for safe cleaning of the fabric

Cleaning and maintenance:

The heating element used in is resistant to moisture. However, strong laundry detergent can cause mechanical damage of the heating element . Therefore, we recommend surface cleaning with a cloth or brush with a small amount of detergent and gentle rinsing . If you need a more powerful washing, tightly wrap the end of the power cord. Do not clean with battery connected to them!

Important:

If there is mechanical damage to any items, immediately turn off the device and remove the power banks. The defective part must be sent to the service for repair or replacement.

RoHS
Compliant

MANUAL

Turning on and operation

Each time before turning on, make sure that the built-in connection cable is not mechanically damaged. Also make sure that the connected battery is free of mechanical damage.

Connect the power banks to the built-in cable. Place the power banks in pockets. To start the heating press and hold the ON/OFF button for 1 second. Device will turn on with the heating power at 100%. The heating will start automatically when you turn on.

Short press of the I, II and III buttons on remote toggles the heating power to 33%, 66% and 100%.

To turn off the heating press and hold the ON/OFF button for 2 second.
